A really cute thing he/she does is: she likes to "cockroach" when she sleeps, she's a hoarder with our other dog's toys

HOUSE MANNERS

Plays well with others(children, small dogs, cats etc.) Does great with children, no problem with other dogs her size (haven't had her around smaller dogs), she is very easy going - you can do anything to her and she won't get upset

Potty habits(how asks to go out, any problems, times etc) she's been 100% with pee, only 2 poo incidents within first 48hrs. of her being with us. Crates fine.

Obeys house rules(furniture, garbage, doors, counters, etc.) in last 2 days she's been a bit more mischievous (probably testing us and getting comfortable with us) - she will counter surf if any food is out. We are working on this with her.

SLEEPING HABITS

Bedtime/wakeup time sleeps 10/11p - 7a

Crated(when, how long, feelings about crate) crates for bedtime and if we leave house - does fine at night, barks for a while if crates during day, goes into crate easily
