Comes when called: no understands NO: no

Understands Good: no plays with toys: Yes

Method of correction used: We say NO! and direct her away from doing what she's trying to do. We also are using "Leave It!" with her quite frequently.

A really cute thing he/she does is: She is an adorable dog and will give kisses and run around with her butt tucked in the back yard. Her tail is always wagging.

---

## HOUSE MANNERS

Plays well with others(children, small dogs, cats etc.): She appears to be small dog oblivious. She has only been exposed to kids and other animals at meet and greets. She is cat safe.

Potty habits(how asks to go out, any problems, times etc): She does not ask to go out but has only had two accidents in the house and those were in the first days when she was adjusting to our schedule. We let them out at 7am, 2pm, and again at 9:30pm.

Obeys house rules(furniture, garbage, doors, counters, etc.): She is not trying to get on furniture yet. She will eat out of the garbage if given the opportunity and will destroy any type of electrical cord she has access to. We are working on breaking that habit.

---

## SLEEPING HABITS

Bedtime/wakeup time: 10:00pm/7:00am.

Crated(when, how long, feelings about crate): Hidey goes right into her crate when we say "Kennel Up" and point to the crate. She is not bothered by her

crate. We do have to crate Hidey when we go outside as she is a collector of things.

Where sleeps at night: In our bedroom with the other dogs, but crated.

Where has the dog been living during the day? Hidey is out with our dogs when we are home and crated when we are outside or gone.

---

## PSYCHOLOGICAL

Fears: Hidey does not appear to be frightened of anything.

Temperament(shy, outgoing, confident, dependent etc.): Hidey is a very laid back, calm dog. She is very sweet but is definitely a follower here. She is very affectionate with us and gets along well with our dogs.

Reaction to new situations: She adjusts quickly to new situations. Doesn't seem to be bothered by anything.

---

What are the dogs best points: She is really a sweet, loving dog with a great personality. Doesn't try to take charge in any way and adjusts to new things easily.

What are the dogs worse points: Hidey has chewed up a telephone cord, the

cord off the dremel tool I use for their nails, 1 pillow, and 2 cell phone chargers. She needs to be watched very carefully when she is out of the crate because she can get these items very quietly and sneak away with them to chew. We call her Ninja Dog because several times she has gotten something when we are all in the room. When she is caught with something though she gives it up easily and without any growling.
