Smooth Annie (Annie)
Allies

Date: 5-30-10

Annie's week of training went well although it was hot and she had to stop for water annie managed to do her command (sit down stay come) annie is walking much better with her trainers and others, she does not pull per leash and she stays on the left side of her trainer. Annie's sleep is very good. her favorite position is on her back. When we first began training annie she had a lazy sit, now she has a proper sit and down position. so annie has progressed in every area. Annie's potty is fluctuating from soft to hard on every day, but for the most part she is fine. annie has no physical damage, very healthy
