Annie's week was full of training and playing. Annie has become very good at training indoors and outdoors, Annie is comfortable with the stay command. She will "stay" in circuit training until I give her the come command and then she takes off to greet me. Annie had so much fun this week she played in the water with the other pups. I took Annie on a stair climbing exercise and she walked up and down two flights of stairs. As Annie and myself walked Annie stopped over so often to smell all the flowers in the flower garden. Annie is an outdoorsy kind of dog that just loves nature. Annie has been a blessing to all of us and we are thankful.
